Program Overview

A study of the underlying principles and practices in domestic and international tourism, this course includes issues that contribute to travel and tourism development. Focus is on the economic, social/cultural and ecological impacts of tourism and how policy and planning play a role in creating sustainability in traditional and emerging markets.

Life in Leysin, Switzerland

Situated at an altitude of 1263 meters, Leysin enjoys an extraordinary amount of sunshine enabling a large selection of year-round activities. Students come from all over the world to study in Leysin, a village with an international and cosmopolitan atmosphere.

Housing and Accommodations

In Switzerland, Students will stay in furnished apartments, centrally located on campus at the American College of Leysin in Switzerland. While in Paris, students will stay in a downtown hotel.
