Student Support Program Agreement

I understand the following conditions of the program:

- 1. To participate actively in the program by attending all scheduled consultation sessions each week with my learning consultant.
- 2. To come prepared with class assignments for each learning consultation session.
- 3. To attend all classes.
- 4. To complete course readings, homework, other assignments, and projects.
- 5. To notify The Center for Teaching and Learning if I cannot attend a learning consultation session.

Note: The cost of the Student Support Program is \$1000 for the semester and is prorated if a student chooses to participate in the Program after the semester has already begun. Although your commitment to the program is for one semester at a time, this contract remains in effect for the length of time you are in Student Support. You will be automatically continued in the program and billed through the Bursar's Office unless we hear from you at the close of each semester.

After the first learning consultation session, withdrawal from the Program will result in forfeiture of the Program fee.
